Developing New Worlds

Background / Timeline

This story takes place on two different worlds. One in the real world, and one in the dream world.

- Where the story begins, the real world is very similar to the real world.
- The dream world is formed within one of the main characters' minds, Felix.
- Several Kingdoms inhabit the dream world; one for each element within the world: Water, Fire, Air, Ground, Ice, Electric, Life, and Death.
- The dream world contains all of Felix's dreams and nightmares.

Main Characters - Dreamers

The Dreamers are four teenagers who have unusually fallen into comas at the same time. After going into comas, the four wake up in a dream world of Felix's imagination and must find a way out.

- Felix - He is a teenage boy who has an average life. He's more of an introvert and chooses to keep to himself most of the time. He keeps the few friends he has close. Felix isn't just any average boy though. He isn't even human. He is the son of an angel and of a demon.
- Gabbi - She comes from a religious family, as her father is a Catholic Pastor. She has a twin sister, who she hopes never has to go through the pain she's gone through all of her life. It's a tough life being a pastor child.
- Riley - He lives in a Foster home. He tends to run away from home a lot. Has always felt lost, like he's missing something.
- Justin - Grown with a silver spoon in his mouth. Never had a connection with his own parents. The only love he knows is from his maid and caretaker, Ximena.

Main Characters - Warriors

These three girls were captured, the only thing they know about their capturers is the building they wake up in. Their families were all friends.

- Kirsten - A childhood friend of Felix, She grew up with a pretty normal life, then her family moved to California and she made a lot of rich friends.
- Brittany - A tomboy at heart, she grew up with the boys. She became the head of the wrestling team before getting captured.
- Lauren - She likes to keep to herself. A bookworm. She learned about many things through her studies.

Real World

As the story progresses, earth begins to have disasters based on the dream world. We'll go through the family dynamics of each of the dreamers. We also will learn about the secrets of this world.

Dream World

This world holds many different cultures and lifestyles. There are different gaps in technology and science. The dreamers travel through each area trying to find a key to how they can get out of their comas.

"Normal" Area

This area of the dream world is where most dreams take place. Technology is mostly like the real world and structures are fairly similar. Some structures may be exaggerated. This is most likely where all those dreams of you in your underwear at school are. Unfortunately, this is where most of Felix's dreams of being hunted down are also.

Future Area

This is where Felix's dreams of futuristic places go. Hover cars, Bright lit buildings, Robots, all can be found as the norm here. There are synthetic robots who look almost human. The Fire Kingdom and Electric Kingdom live in this area.

Sky Islands

The people of these islands have found ways to make building materials light enough to not weigh down the islands themselves. The people have found a use in blimp technology for transportation needs. This is where the Air Kingdom lies.

Mountain Area

The cold mountains of the north. Not much is here, only snow and rock. Most dreams that involve snow probably end up here on account of it's perpetual snow. The tribes of the Ice Kingdom travel around this area.

Desert Area

Down south is where the sand is. This area has a lot of ranchers and townships. Inspired by most Westerns. Steampunk robots and limb enhancements roam this land as well.

Ancient Forest

A large forest hails in the west. A large ancient tree is at the center. The fairies of this dream world live inside the ancient tree.
